Building a Better Internet

Connecting Local Communities Across America

TheLocalProject is a crowdsourcing initiative sweeping across America with the mission to "Build a Better Internet" at the local level. People from around the country are currently joining together to form Local teams. The objective is to establish "local area networks" within their communities for connecting local businesses, communities and residents in more interactive and powerful ways.

Local teams consist of area residents, local businesses, chambers, charities, churches, municipalities, schools and more. If you would like to participate in your area, visit us online at www.thelocalproject.net.

TheLocalProject mission is to "Build a Better Internet" at the local level

- Organize the best local content into one place
- Give residents useful community technologies
- Equip local businesses with interactive capabilities
- Promote online local commerce within the community

-  Check your area's "Local Feed" for activities, events & things to do
-  FREE Classifieds to Buy & Sell
-  Save Money with Local Coupons, Discounts & Specials
-  Follow what's happening at city hall, area schools, chambers of commerce, local charities and more
-  Get comprehensive local information delivered directly to your cell phone or desktop PC
-  Get Local Civic, Dining, Nightlife & Sports News

CROWDSOURCING A BETTER INTERNET

TheLocalProject is a collaborative effort of local people working together to improve the Internet locally, known as "Web Localization". Our endeavor is a never-ending undertaking that will continue to expand as web technology continues to evolve.

Everyone is encouraged to participate! The success of the "local area network" in your community is a result of the cumulative contribution of the local residents, businesses, community organizations and visitors who use it. We welcome you to join the team – Together, let's build a better Internet!

OUR TEAM HAS ROOM FOR EVERYONE!

Local Residents

TheLocalProject offers several opportunities for residents of the community to participate. Opportunities include: a) serving as a local civic, sports, nightlife or dining editor, b) assisting with adding content, c) help distribute the app within the community or d) by joining our local area field team.

Community Organizations

As a valued member of the community, TheLocalProject offers your organization a free membership and profile, plus access to promote your organization's events in the local feed. Contact your Area Director to learn more about the partner opportunities we have available.

Local Businesses

Registering your business into you area's network provides quality content for area residents & visitors; as well as valuable benefits for you. As a featured or sponsoring business you will receive priority placement plus interactive functionality to connect with local users.

Civic Agencies

TheLocalProject has special opportunities available for city halls, schools, fire departments, police departments, parks & recreation and other municipal agencies. You will receive priority placement and access to distribute official news though our network. Contact your Area Director to learn more about these programs.
